Federalism: The Division of Power Flashcards | Quizlet

Federalism: A Division of Power. ADA Text Version. A federal system of government, such as in the United States, divides power and responsibilities between the national government and state governments. At first glance, the U.S. Constitution appears to make this division clear. The supremacy clause contained in Article VI declares federal laws, treaties, and the U.S. Constitution to be the supreme law of the land.

Federalism: A Division of Power - Dallas College Mountain ...

Modern democracies divide governmental power in two general ways; some, like the United States, use a combination of both structures. The first and more common mechanism shares power among three branches of government—the legislature, the executive, and the judiciary. The second, federalism, apportions power between two levels of government: national and subnational.
