In 2016 the IRS released its Future State vision, featuring seamless electronic interactions between the agency and taxpayers or their representatives. Progress towards this vision has been slow, as IRSAC noted in its 2018 and 2019 reports. (Les also wrote several posts on the Future State, its implications, and related developments.) Today the IRS remains far behind lenders, brokers and banks ...

### **Electronics Training NYC, New York | CourseHorse**

Telecommunication is the exchange of information by various types of technologies over wire, radio, optical or other electromagnetic systems. It has its origin in the desire of humans for communication over a distance greater than that feasible with the human voice, but with a similar scale of expediency. This excludes systems such as postal mail from the field of telecommunication.
